Education

Diploma in Computer Engineering
Vidyalankar Polytechnic, Mumbai
2024 – Present

Technical Skills

Programming Languages

- C
- C++
- Python
- SQL

Web Development

- HTML
- CSS

Core Computer Science Concepts

- Data Structures using C
- Object Oriented Programming (OOP)
- Database Management System (DBMS)
- Problem Solving & Algorithm Design

Tools & Technologies

- Turbo C++
- Visual Studio Code (VS Code)
- PyCharm
- GitHub
- Generative AI Tools

Additional Skills

- Problem Solving
- Team Collaboration
- Software Development Fundamentals
- Football (Team Sport – discipline & teamwork)

Career Objective

Motivated Diploma Computer Engineering student with strong foundation in C, C++, Python, Data Structures, and Web Development. Experienced in developing practical software projects including management systems and a live deployed website. Passionate about solving real-world problems through programming and continuously improving software development skills. Seeking an opportunity to apply technical knowledge and grow as a software developer.

Projects

• Haji Cloth Store Website (Live Project)

Live Website: www.hajiclothestore.com

Developed and deployed a live website for a clothing store, focusing on structured product layout, navigation, and real-world business presence.

• Windows Jarvis AI Assistant (Python)

Built a voice-controlled desktop assistant using Python capable of executing system commands, opening applications, and responding to voice input.

• Student Management System (C / C++)

Developed a console-based system to manage student records with features like add, search, update, and delete operations.

• Library Management System (C / C++)

Created a menu-driven application for managing book records including issue, return, and record management

• Career Buddy Website (Hackathon Project)

Developed the core website structure and UI for a student career guidance platform while collaborating within a 6-member team.
